AI Product Manager | Agentic AI Solutions Architect

Sr. **AI Product Manager / Engineer** with 8+ years of spanning enterprise SaaS, GenAI systems, SAP integrations, and digital transformation. I lead design and full-cycle launch of AI-native products, from LLM copilots to agentic workflow platforms, with technical fluency in multi-agent orchestration (LangGraph, CrewAI, MCP), RAG architectures, and SAP BTP/AI Core. I translate complex enterprise needs into intelligent agent architectures, managing AI/ML product lifecycles, and driving go-to-market strategy for innovation-led orgs, across agile teams and regulated industries.

Core Competencies

AI-native Product Strategy | Multi-Agent Orchestration & Evals | RAG & Vector DBs | LLM Integration (FMs) | UX-Design Thinking | System Design & Architecture | Product Leadership & Stakeholder Mgmt | MLOps/LLMOps | CI/CD PoC to Production | Go-to-Market | Full-stack Prototyping | Multi-Cloud AI (AWS/Azure/GCP) | Responsible AI Prompt & Context Engineering | Enterprise AI Transformations | Governance & Compliance (GDPR/HIPAA)

TECHNICAL SKILLS & TOOLKITS

PM & Design: Jira, Notion, Linear, Miro, Slack, Preplexity AI, Google AI, MS365 Suite/Copilot, Loom (async), Figma, Magicpath, Canva, Miro, Runway, Gemini, Pika, Adobe CC, Midjourney, PlaybookUX, Scribe **BI & Database:** Power BI/Tableau, Claude + Excel, Mixpanel, Amplitude, PostHog, Retool, G-Analytics, Optimizely, Statsig, SQL/NoSQL, Supabase, FAISS, Neo4j, Redis, SAP HANA/Cloud, GCP, AWS, Azure, Airtable **Dev Stack:** Next.js, React, Tailwind, Svelte, Node.js, Python, Express.js, REST/GraphQL APIs, LangChain, LangGraph, CrewAI, AutoGen, LlamaIndex, FastAPI **AI & LLM:** Codex, Claude, Gemini, Bedrock, Azure AI, OpenRouter, Ollama, LangSmith, Helicone, memGPT, Zep, n8n, Make, Zapier, Openclaw, cron/schedulers **IDE & Deploy:** Cursor, VS Code, Claude Code, Codex, Antigravity (prototyping) | Vercel, Netlify, Railway, Fly.io, Docker, GitHub Actions, LangServe

PROFESSIONAL EXPERIENCE

Paassoft Inc. | Suwanee, GA | July 2025 – Present

AI PRODUCT MANAGER / AGENTIC AI SOLUTIONS ARCHITECT, CLIENT: **SMARTSOFT AI INNOVATION LAB**

*Led product design, roadmap planning, and lifecycle execution for a modular **AI Agent Builder platform** and a suite of specialized **enterprise AI agents POCs**, integrated with **SAP S/4HANA**, **SAP BTP**, **SAP Business AI & Joule Agents**.*

- ❖ Partnered with senior engineers and solution architects to develop **cloud-agnostic, compliant, and secure agents** using **OpenAI, Bedrock, Gemini, and Azure AI**, tailored for regulated industries & SAP environments.
- ❖ Defined vertical copilots for key use cases such as **invoice classification, financial close automation, billing inquiry resolution** and **field operations support**, mapped to SAP ECC/S4 modules and live workflows.
- ❖ Co-architected the **demo portal and admin panel**, enabling end-to-end productization of interactive POCs for internal enablement, client validation and early GTM traction—**cut agent build time by 50%**.
- ❖ Contributed to the **standardization of agent design patterns**, prompt libraries, and governance modules (e.g., lifecycle mgmt, auditability, context engineering) to enhance platform extensibility and delivery velocity.
- ❖ Engineered **multi-cloud agent orchestration** layers, incorporating **RAG pipelines**, metadata-based prompting, and compatibility with SAP ISLM for real-time SAP workflow integration.
- ❖ Designed SAP-centric agent flows using **LangGraph**, custom APIs, and **SAP Fiori** components, with strict guardrails and traceability features to ensure system safety & regulatory compliance.
- ❖ Aligned **SAP BTP & AI Core** platform features with vertical adoption paths across **utilities, oil & gas, manufacturing, and finance**, driving platform readiness for client-specific pilots.
- ❖ Standardized governance & compliance (GDPR/HIPAA, lifecycle mgmt, persistent memory) across all AI solutions.
Stack: SAP Business AI, SAP S/4HANA, SAP BTP, SAP AI Core, SAP Fiori, Joule Agents, OData, SAP ISLM, SAP Concur

North Highland Inc. | Atlanta, GA | July 2022 – June 2024**AI PRODUCT MANAGER, GLOBAL SERVICES & AI ENABLEMENT**

Spearheaded the productization & delivery of in house digital products – NH360 (Maturity Assessments, Transformation Diagnostics, Change Pulse & Change Economics). Served as liaison to 35+ unique client projects across verticals, optimizing operations, driving AI use case mapping and implementation of AI solutions for NH consultants.

- ❖ Led the development and migration of legacy product models into **PowerApps, Decooda & UMT360**. Onboarded **35+ new client engagements** for TI products & developed complex **PBI Admin Dashboard** for reporting across products.
- ❖ Instilled a data-driven culture by building KPI frameworks to effectively track adoption & key product feedback metrics around new feature releases and user engagement/adoption, enabling **3x faster delivery**.
- ❖ Developed **7+ Epics & user stories** for NH's consulting groups that helped improve deal flow & increased productivity and performance for consultants, contributing to **~\$750K to ~\$1M in savings** for the firm.
- ❖ Worked closely with POs & SMEs to establish technical vision early, support end-users during QA & UAT, analyze tradeoffs between usability & performance needs.
- ❖ Played a pivotal role in driving alignment and execution by drafting **OKRs, Product Goals, & Sprint Goals**. Facilitated **Sprint Planning & Backlog Refinement** sessions enabling agile development and continuous improvement.
- ❖ Ensured that 100% of inter-team risks, impediments, and blockers were identified, communicated, and resolved.
- ❖ Provided maintenance and troubleshooting support to product end-users during Dev, QA & UAT; facilitated training workshops for new users (KM) whilst working with **Client Executives** on operational readiness and onboarding.
- ❖ Streamlined post-engagement processes, conducting Feedback Surveys and **Voice of Customer (VoC)** retrospectives.
- ❖ Drove product development, documentation, and training, ensuring the product's alignment with strategic objectives, while also providing comprehensive support for assessment creation, customization, and delivery to clients.

Smartsoft International Inc. | Suwanee, GA | May 2020 – April 2022**PRODUCT MANAGER (B2B), CONTRACT: SIEMENS INC.**

Led product development of custom WMS products for Siemens' Mindsphere IoT. Served as liaison to 15+ product, engineering, BI/analytics team members in all phases of B2B product delivery for 3rd party vendors, driving product strategy, roadmap decisions and stakeholder communication to ensure on-time and high quality delivery.

- ❖ Delivered customized LaborApp/WMS (MindSphere) & onboarded 4 new clients, **increasing ARR by 35% in 2 yrs.**
- ❖ Implemented **7+ key features** (analytics/reporting), improving warehouse flow & productivity for floor associates, contributing to client's savings due to prompt order fulfillment.
- ❖ Translated complex technical requirements into design & functional documentation, got stakeholder buy-in for acceptance criteria and provided actionable user stories to engineering and analytics teams.
- ❖ Collaborated with Sr. PMs on **5+ key production releases** across multiple sprints through product life cycle.

GoProcure Inc. | Duluth, GA | January 2019 - April 2020**AGILE PRODUCT OWNER (MOBILE)**

GoProcure is a SaaS B2B e-commerce & Tail Spend management solution with 15+ Fortune 500 enterprise clients. Partnered with CTO & PMs to prioritize product backlog and ensure optimization of design & development workflows of GP's mobile app.

- ❖ Led redesign & launch of updated GP mobile app, achieving **\$1M in annual spend** and **~15% MRR growth rate** in 2019 & 2020; improved app stickiness (DAUs/MAUs) & avg. app engagement time by **2-3x**
- ❖ Identified product gaps in legacy versions and evangelized new mobile features (URL Search, Shopping Lists/Kits, Cart, Approval notifications etc.) that improved mobile app conversion rate from **7% to 15%** post-production release.
- ❖ Implemented **Sharepoint & Asana** integration to remove communication silos, displaying **15% faster rollouts**.
- ❖ Helped launch **ZenDesk**, reducing support tickets and customer support calls (Buyers Desk) by more than **60%**.

Bob’s Furniture Inc. | Manchester, CT | January 2016 – April 2018

SAP INTEGRATION LEAD (IT PMO)

Bob’s is a growing private furniture retailer with 150+ stores across the USA with a turnover of ~\$2 Billion (USD) per year. Optimized delivery of cross-functional IT projects in collaboration with Sr. technical consultants and senior leadership.

- ❖ Oversaw over **50+ technology integration projects (SAP)** from initiation through delivery. Ensured 95% of billable projects remained on schedule and within budget, providing recurring status reports and post-production support.
- ❖ Designed & maintained IT departments annual **CapEx budget reports (>\$50M)** in Excel using VBA code automations.
- ❖ Integrated SAP Concur for consultants travel/expense management, contributing to **15% in cost savings YoY**.

Previous Roles: Served as Jr. SAP FICO Analyst for **Bob’s Furniture**, Sep 2015 - Dec 2015 (4 months).

EDUCATION & CERTIFICATION

*Duke University - Large Language Model Operations (LLMOps) - specialization	Nov 2025
*Duke University - Machine Learning Operations (MLOps) - specialization	Nov 2025
*Microsoft AI Product Manager - professional certificate	Oct 2025
*IBM RAG & Agentic AI - professional certificate	Oct 2025
Google Generative AI Leader - professional certificate	Oct 2025
AWS Generative AI Applications: Scale Your Vision	Oct 2025
AWS Generative AI and AI Agents with Amazon Bedrock	Oct 2025
Atlassian - Agile with JIRA	Oct 2025
Atlassian - Version Control with Git	Oct 2025
PMI-ACP (45 HRS/PDUs) PROJECT MANAGEMENT INSTITUTE (PMI)	2018
SAFe® Certified Product Owner/Product Manager SCALED AGILE	2017
Certified ScrumMaster (CSM®) SCRUM ALLIANCE	2017
University of Georgia - Terry Business School — Athens, GA	2011 - 2015
Bachelor of Business Administration, Finance & MIS	
● Honors: 3.5 GPA, Dean’s List 2013-2015 (Top 10%), Presidential Scholar (2 Semesters)
